## At the Angkor Wall in Siem Reap

"10 best things to do with kids" on the web page of Hotels.com, and three-wheeled taxis are increasing rapidly and can find the place easily using Google Maps or their smart phones, the number of foreign travelers and inquiries seems to be increasing. However, as local visitors rarely come, there is still a long way to go to make this place profitable.

### Holds for Speed climbing were set.

There is no official wall for speed climbing yet in Cambodia. For this Lotus Cup, Phnom Climb bought a set of official holds and Taica got one more set as well. We decided when the Lotus Cup and Angkor Cup are held, two sets of holds are set for each competition, and in the ordinary time, one set is used for practice at each wall. As you can see from the picture, only the first eight holds out of 20 are set on the wall in Siem Reap. However we use these holds to practice well and prepare for the Angkor Cup.

## SEACF Instructor Training

The Instructor Training sponsored by the South East Asia Climbing Federation was held at the Angkor Wall on June 13~16. Mr. Mamann of the ACC (Asian Continental Council) asked CCF to hold it when the ACC and the IFSC General Meeting was held in Tokyo in March. The relationship between SEACF, ACC, and IFSC is shown below. ACC is a continental council of IFSC. If a country becomes a member of IFSC, it automatically joins the branch but SEACF is a different organization which ASEAN nations formed.

The World  
Championship in  
Hachioji in August  
was a world-class  
competition.

Sports Climbing was chosen as an event of the Paralympics in 2024, the one after the Tokyo Olympics 2020. In Asia, Climbing will become an event of the Asian Games in Hangzhou, China in 2022 following the Asian Games in Indonesia in 2018. However, I am sorry that climbing has not yet been chosen as an event of the SEA Games in the Philippines in 2019. We hope these activities like this training project will gain momentum and the climbers in Asian countries such as Indonesia and Thailand will play an active part in the world class competitions.

For the training project, eight members attended, with support for two person's fees from Taica, another two from SEACE, and two from Phnom Climb and ACN Japan. Two participants paid by themselves. The two participants (shown in the picture) who are not holding the certificates have already received them in Indonesia.

## ACN General Meeting

The 6th General Meeting since the ACN became a NPO in 2014 and the 5<sup>th</sup> since it changed the venue to cool Kai-Oizumi, was held on August 24. The board of directors updated on our activities and closed accounts and budget for 2019. These reports were submitted to the Tokyo Metropolitan office and Chofu City Hall respectively. According to the article 8 amended last year, the balance sheet of 2018 will be posted on the ACN's homepage shortly.

<http://www.angkorclimbers.net/acn.html>

This year, more children participated in the meeting and enjoyed BBQ and fireworks. As we mentioned 'Bring your own sleeping bag', it was rather cold in the morning, away from the summer heat of the city.

## GLOBAL FESTA

## Editor's note

“Ganbaru Zo-san” (shown on the right picture) is an elephant mascot, which is sold on T-shirts and Krama at the general meeting and the Global Festa, made by Cambodian mothers. Among children, who come to climb the wall in Siem Reap every Sunday, 6 of them come from the house attached to the vocational training center where people can learn how to make these mascots. We sell these as well as Angkor Cup T-shirts etc. at the ACN booth. The proceeds will be used to pay for postage or shipping charges of goods and presents donated

from everyone to Cambodia. This is the 6<sup>th</sup> time the ACN participated in the Global Festa as mentioned on the front page, and the event was canceled twice on the second day because of typhoons. Odaiba is a windy place. I hope the event won't be hit by a typhoon this year! If the weather is not suitable, please see the information on the website.(Chimi)
